1 February 2011

Dear Sir,

I would like to wish you and all your tutors the best for 2011.

I would hereby like to express my personal and staff's gratitude for the sterling work that you and your tutors had in our learners' academic success for 2010.

We especially want to thank those tutors who selflessly forced themselves away from their personal studies or work to help our struggling learners to better their results.

We started with the project last year with the grade 10 group and results in Mathematics increased from 77% pass rate in 2009 to 86,4% in 2010. Although there was an increase in the Physical Science results, there is still much need for improvement. I'm sure that if your group will tutor these learners again, results will improve.

I hope that our collaboration with you will continue as I'm sure our learners will only benefit from it.

As per our discussion, all subject plans will be available for your personal planning at the school. All educators will also avail themselves to discuss possible problem areas with you.

Hope to hear from you soon.

Yours faithfully

S. Salaam

Principal
